

# FRANGELI DESIGNS

Ph. (877) 506 - 5066 M/WBE Certified: 61268

## Company Overview

The Frangeli Design Group is a **MWBE certified architectural support** firm with experience in the residential, commercial and health care spaces. The use of cutting edge technology defines our processes which sets us apart from most other design support firms in the space.

## Differentiators

The Frangeli Design Group works exclusively in **BIM software** and leverages full immersive Virtual Reality (VR) throughout the design process to:

1. Provide a cutting edge technical approach in your RFP responses
2. VR modeling will reduce re-design during the conceptual phase.
3. Speed up stakeholder buy-in with the use of VR
4. Become more cost efficient by reducing RFI or change orders during construction
5. Communicate the vision of the project immediately with Project/Construction Managers and/or Contractors during the construction phase.
